In Sect. 3.1, p. 338 of originally published paper, the formulae (1) and (2), were not correctly typed out. The correct versions of the formulae (1) and (2) are

$$< \sigma_t > = \sigma_{t0} \left(1 + \frac{r}{r_t} \right)^b \tag{1}$$

and

$$\sigma_t = \frac{\sqrt{2}}{1.67} t_{\text{median}} \tag{2}$$

respectively.
